Send to: Mr Coy
Gen. David Sarnoff
c/o NBC
30 Rockefeller Plaza

Mr. Wayne Coy
Federal Communications Commission
New Post Office Building
Washington 25, D.C.

Dear Mr. Coy:

We would like to acquaint you with WCSR and of the Pioneer Broadcasting System to which it belongs, ~~but I should like to~~ tell you about ~~what~~ an idea to further campus radio, which we think is a very important aspect of campus life, especially in these times.

WCSR is part of a College network composed of three other college radio stations, WAMF of Amherst College, WMUA of the University of Massachusetts, and WAIC of the American International College, ~~and affiliated with WSFL of Springfield, Massachusetts.~~ It is the hope of these stations that even with our limited facilities we can operate as professionally as possible and can make college radio an integral and important part of campus activities. Not only does this promote cooperation and stimulate joint collaboration among the member colleges, it also provides an outlet for various talent on campus and gives the students an opportunity to try their hand at a field in which they may later find their profession.

In past years WCSR has exchanged broadcasts with other college stations not in our network, and this acquaintance with other stations has shown us the great diversity that exists among the various organizations. Having ourselves garnered many little tips from these interchanges, it occurred to us that all of us might benefit from a joint conference of college stations, and with this intention we have invited all of the ~~relatively near-by college~~ Eastern College ? stations to send delegates here to Smith College for a conference of this sort to be held March 16-17-18. There will take place at this time a series of discussions on various phases of radio, ~~as well as opportunities for social enjoyment.~~

It would be very valuable to us if you would speak at our banquet Saturday night, mar 2, possibly on the subject "The Place and Problems of Radio on the Campus," and perhaps guide one of the discussion groups Saturday. All of us are aware of the great tasks performed by the FCC, and many of us are considering the possibility of going into some aspect of radio itself or of working with the FCC. We feel that it is a time for a re-evaluation of radio and its effects on us, and we would appreciate very much your talking to us in this respect.

Sincerely,

Janet C. Schuck
Program Chairman

The FCC is of almost importance to the progressive existance of radio on the campus.

Therefore, we wd like you to speak Sat. P., Mar 17, possibly at the banquet & discuss "Campus Radio, Present & Future." We'd like you to be our guest for the week-end.
